Achia Sea Foods Limited

Producer, Processor & Exporter

WORLDWIDE EXPORT

Achia Sea Foods Limited

Welcome to the Seafood arena.. . . .

Achia Sea Foods Ltd. is a 100% export oriented seafood processing plant since 1997. The plant location is in the heart of the shrimp producing zone of Bangladesh in south-western part and nearby the second largest seaport, Mongla. Our shipping truck can reach to the port within half an hour. Plant is connected with the aquaculture farms both by road and river. All the products are produced under HACCP quality assurance system and earned BRC & ISO for the product quality, source control and documentation. We have completed the compliance for the certification of IFS & Organic.

Our corporate motto is to produce hazard free and safe seafood products for human. This plant is involved in processing and exporting finest quality of seafood products like seawater and freshwater Shrimps and White fishes. Product lines are equipped with the latest state of the art cleaning, grading, peeling and freezing technology procured around the globe.

Our brands “**OCEAN PEARL**” & “**SITARA**” are popular in the global seafood market due to its’ competitive price and quality of products. These two brands are brighter on the global seafood isles in Asia, America, Australia and European Countries.

Meet the Managing Director

Assalamualikum, I’m Tariqul Islam Zaheer, the Managing Director, of Achia Sea Foods Ltd. Firstly I am grateful to **almighty Allah** for my present business, economical & social position. I am honored to share my seafood business experience as the founder of this leading seafood processor and exporter of Bangladesh.

Seafood is my personal passion and family business. This was started from deep sea and coastal fishing operation supplying domestic and international market. I feel pleasure now that I have the monolithic global business relation with fifty above countries.

Our principle is to uphold the quality and safety of our products and services. We are serious about the resource control, chain of raw materials and final products. Our raw material sources are organic, authentic

and documented. We ensure our processing, handling and storage under continuous and stringent quality control with documentation.

We comply perfectly with all kinds of hygiene and sanitary standards for int’l customers. It is our aim to satisfy the customers with our excellent service and seafood products.

Our business pleasantly supports social and cultural activities in the local community as a part of our corporate social responsibility.

It is time to thank all our customers, business associates, partners and dedicated nicest plant operating people. Our professional appreciation is to serve all your business inquiry.

PROCUREMENT & EXPORT:

Our factory is situated on the bank of the river Rupsha and within 50 meter south from Rupsha Bridge. As a result our factory is well communicated both by river and road and surrounded by Shrimp farming area of Khulna, Satkhira and Bagerhat District. So, the raw shrimps can bring into the factory within two hours of catch by our own insulated covered van. Hence, we are receiving fresh shrimps for processing. Moreover the company has its own selected firms who are cultivating shrimps in quality way and under close supervision of the company; as a result the company is processing quality shrimps. On the other hand as our factory is situated beside Rupsha Bridge and Mongla Sea Port is only 40 K.M. from our factory and it takes only 50 minutes to reach to the Mongla Port from our factory for export of frozen shrimps and fishes by our own Refrigerated Van.
